

Humanitarian Assistance to the Palestinians

The following are just a few examples of the kind of assistance Israel continues to render to the Palestinians even while the Palestinians continue to attack it:

- Some 80,000 Palestinians from the West Bank and 40 000 from Gaza were able to come to Israel for medical treatment in 2006.
- Nearly 13,000 patients from Gaza were evacuated to hospital in Israel between June 2007 - January 2008, a period during which Palestinians fired over 1500 lethal missiles at Israeli population centres.
- In the same period, over 17,600 lorries carrying over 408,600 tonnes of supplies crossed into Gaza from Israel.
- Israel's supply to the Gaza Strip power station has been maintained, providing 60 MW, with a capability of 60 MW.
